

CINEO C2040

Monofunctional automated teller machine for indoor installations

Cash Cycle Management™ Solutions – Setting new standards

The CINEO C2040 is part of the unique technology concept and a component of Wincor Nixdorf's revolutionary Cash Cycle Management™ Solutions portfolio. The cash dispenser is based on a completely new technology approach, with an innovative banknote storage concept as its core element. This makes it possible for banks and retailers to interchange one and the same cassette between all systems in the CINEO cash series.

Clear value proposition

The groundbreaking technology platform optimizes cash replenishment and pick-up processes. The new CMD-V5 cash media dispenser enables operators to realize closed cash cycles throughout a bank branch or retail store as well as between branches/stores in one organization. And for the very first time, cash cycles can be networked across industries and integrated in cash center processes. As a result of optimized cash handling, the CINEO C2040 enables operators to cut their costs and improve on security. Combined with innovative

software and end-to-end cash management services, the system guarantees audit compliance and maximum transparency of all cash inventories at all times.

Impressive innovation

With its new CINEO C2040 system, Wincor Nixdorf offers yet another best-in-class cash dispenser for use in branch and lobby environments. One of the most important features of the CINEO C2040 is the ability to upgrade the ATM to a cash recycling system. The compact indoor system delivers excellent performance thanks to enhanced multifunction options. 15" monitors, softkey and touch operation, an illuminated card slot, attractive design and customer guidance on a minimum footprint guarantee maximum satisfaction. Optimal component accessibility and a graphical user interface make CINEO C2040 one of the world's most user-friendly cash dispensing systems. The same applies to serviceability: A broad range of operating information is delivered automatically, enabling proactive and efficient system management. Dispenser technology that has proven its worth across the globe, coupled with the cut-

ting-edge cassette technology, conspire to create a unique, flexible system that can be tailored to customers' specific needs.

Security across the board

Criminal attacks often result in more than just damage to systems – they are also likely to concern customers. CINEO C2040 offers impressive new security features: An Anti-Manipulation Card Slot, the Anti-Skimming II Module, high-resolution cameras, Optical Security Guard, CryptA Stick and EPP V6 with privacy shield, are all features that close potential security gaps, improve system availability and win customer confidence.

TECHNICAL DATA

General

Installation types

- Indoor, frontload or rearload
- Free standing, partly integrated, fully integrated, window frame

Chassis

- Multicolor options
- Illuminated advertising lightbox
- Customers guided by optical indicators at all input and output modules

Banknote processing

Cash-out module

- Withdrawals of up to 60 notes in a bundle
- Banknote reject/bundle retract

Banknote storage

- 2 – 4 cassettes
- Maximum fill level 300 mm
- Fill level indicator
- Scalable cassette concept: Lock, lead seal, tamper indicator, shutter and cover monitoring, cash management memory
- Retract/reject cassette with 2 compartments

Customer interaction

Display

- 15" TFT LCD Display (standard, semi high bright, high bright)
- Autoscaling function for automatic VGA, SVGA, XGA adjustment
- 8 softkeys and/or touch display

Keyboard

- EPP V6 (ZKA & PCI 1.x/2.x certified)
- EPP V6 Vario/Alpha keyboard combination

Card processing

- Hybrid motorized – EMV 4.x Level 1 certified
 - Illuminated throat
 - Card retracted if not removed
 - Card returned if power fails
 - Preparatory kit for CIM 06 (opt.)
 - HiCo-write function (opt.)
 - Integrated contactless reader (opt.)
- Hybrid DIP – EMV 4.x Level 1 certified
- Contactless card reader (external integration/EMV 2000 certified)

Receipt/journal printer

- Thermal printer (dual color for document printing)
- Dot matrix printer

Audio

- Loudspeakers, headset jack with adjustable volume

Security

Cash security

- Safes: UL 291 Level 1, CEN L
- Intruder alarm system
- Mechanical and electronic locks

Data and software security

- Secure channel
- Anti-Manipulation Card Slot
- Anti-Skimming II Module
- EPP shield (ZKA/VISA-compliant)
- Awareness mirrors
- Privacy display filter for the monitor

Identity and access control

- Intelligent operator authentication via CryptA Stick
- Anti-Card-Trapping functionality

Security monitoring

- Cash slot, portrait, ID card unit camera
- Optical Security Guard (OSG)

Multifunctionality

Barcode reader

- 1D and 2D Barcodes

Service

Operator panel

- 5,7" graphical color display
- 10,4" graphical color display
- Customer monitor tiltable for service
- Operator keyboard

Operator guidance

- User guidance via graphic animations and color guidance systems

Operation

Environmental conditions

- Temperature range: +5 °C to +40 °C
- Humidity: 5 % to 85 %

Technical details

- Supply voltage range: 110 – 120 V; 220 – 240 V
- Mains frequency 50/60 Hz
- Uninterruptable Power Supply
